Tough, lightweight plastic inner for protection

Head Protection, Designed for Sailors

There are numerous safety hazards on board - being hit by the boom for example - yet sailors are often reluctant to wear safety helmets as they can be heavy, uncomfortable, and unattractive. These yachting caps incorporate a hard injection-moulded shell for protection and foam padding for comfort, and they meet the requirements of UK & EU Standard Specification BS.EN812 (similar to building site bump caps).

Full-peak SafaSail Cap

Incorporates a large peak to protect against bright sunshine, and a chinstrap to prevent cap being blown away in the wind.

Crew Caps

When specifying our crew caps, we chose the "top-spec" options all the way. So the bulk of the cap is made from strong, 100% cotton twill material, with a sweat-resistant hem and reinforcing sewn around the inside. The brims are plastic (not cardboard), and covered in soft fawn-coloured suedette on top with navy cotton twill beneath (to reduce glare on the eyes). The size-adjusting strap has a metal buckle, and metal sleeve for tucking away the end neatly. Each is heavily embroidered with a crew position in cotton thread. The quality is excellent as is the price. One size fits all. Max 61cm, min 54cm.
