Cobb Outdoor Cooking System

Cobb Premier AIR

The Cobb Premier AIR offers a host of improvements and upgrades aimed at making cooking easier and your food taste even better. Just like the original Cobb, it's incredibly fuel efficient, versatile, and remains cool to the touch on the outside, so you can safely use it on board, in the garden, or on a picnic. On top of that, improved airflow makes it easier to control cooking temperature, thicker gauge stainless steel enhances durability so it will last longer, removable ash pan makes it easier to clean, and it's all backwards-compatible to allow continued use of Cobb accessories and fuel.

Cobb Premier AIR

Comes with a carrying/storage bag. Measures 13" tall, 12" diameter. Also available is the Cobb frying pan & wok set, which is specially designed for use with the Cobb, tough stainless steel construction. Cobblestones fuel available for Cobb.

3034 Cobb Premier AIR cooker & bag.

Cobb Features:

- Stays **Cool-to-the-touch** on the outside. So it can be used on a wooden table, fibreglass deck, or your lawn without causing damage.
- **Doesn't smoke** - food is isolated from the charcoal, so fat does not drip onto it and flare.
- Can be used as a **Charcoal oven** - delicious pizza cooked in just 15 minutes!
- Only needs six briquettes to **Cook for up to 3½ hours** or one Cobblestone (see below) burns for 2½hrs - maximum heat from minimum fuel.
- Is **Easy to clean & long-lasting** - all dishwasher safe.

Open *When fully opened the charcoal can draw more air allowing internal temperature to rise*

Closed *When closed the air flow is reduced allowing the charcoal to burn slower and reduce the temperature*

Cobb Cobblestones

Cobblestones are specially shaped to fill the fuel compartment of your Cobb barbecues, and formulated to burn hotter and longer than charcoal of the same size/weight. They are environment-friendly too, being made from coconut shells. Each stone burns for up to 2hrs (smoke-free after the first three minutes), with very little residue. They are individually plastic-wrapped, so won't absorb moisture if you keep them in a soggy locker and nor will they turn everything black.

99093 Cobblestones, Pack of 6.

Fits the fuel compartment perfectly

Designed to fit!

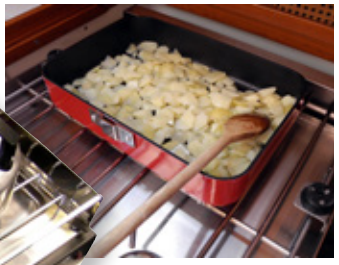

The unique rectangular Boaties frying pan ingeniously solves the problem of fitting a decent-sized pan onto the hob of most recreational boats' compact cookers, and it even allows for a kettle alongside on double burner hobs. At 25x20cm, it offers the maximum cooking area – more, in fact, than a 25cm round pan - and the sloping end allows for easy and safe pouring of liquids, whilst the heatproof silicone handle is raised to clear most retaining rails. The straight 4cm sides allow the pan to be stored standing on its side – making efficient use of precious storage space. It's made of sturdy 3mm aluminium, for even heat transfer, with a stainless steel base, making it suitable for gas, electric, ceramic and induction hobs, and it is finished with a durable non-stick coating for easy cleaning and long life.

Non-slip Matting

StayPut Non-Slip Matting Products

The range of uses for non-slip matting aboard boats, caravans, and in kitchens and workshops is huge, and these items are amongst our top sellers. The fabric is made from non-slip foam which is melded onto a polyester mesh. The unique manufacturing process produces a hardwearing fabric which is not sticky or stretchy, but grips on both sides. It is durable, with an attractive open-weave structure that allows air to circulate - perfect for marine environments. It is washable, easily cut to shape, and available in a range of colours.

Multi-purpose Non-slip Matting

Available in ten colours, these rolls of StayPut non-slip matting are simple to cut and sew, so can be used in an enormous variety of applications. Rolls are supplied in convenient 30x182cm or 51x182cm sizes, or bulk (30cmx55m) rolls that are easy to cut and sell by the metre. Codes for each size and colour are shown in the table below.

Non-Slip Mats Make Your Shower Safer

A cushioned non-slip mat is essential in a bath or shower to ensure a safe footing, but they often attract unsightly mildew. These ones are impregnated throughout (not just coated) with a silver-based technology which inhibits the growth of bacteria and mould, yet is completely safe for humans. Free draining and machine washable, and independently tested to the new Slip Resistant standard BS8445:2012.

Made from high-density, non-marking polymer with a magnetic base and unbreakable, adjustable acrylic vials. Unlike others it can fold to fit better in a tool bag. Whether you're a DIY novice or a fully qualified professional, this is a tool kit essential. 70cm long.

A dishrack would be so handy on board, but where to stow it? Easy with this one because it folds up into itself, measuring just 30x20x5cm. It has room for 13 plates or bowls, with side areas for cutlery and glasses. An integral drip tray keeps worktops dry.

Environmentally-friendly Muggi Range

The 'modern classic' Muggi design has been around for a few years now, enabling sailors to safely carry hot drinks single-handed (vital when you need your other hand to hold on!) and not slip when you put it down. The non-absorbent material is durable, easy to clean, and insulates to keep your drinks warmer (or cooler) for longer. Even if you're not a round-the-world yachtsman, it's equally useful in the garden, workshop, caravan, or campsite. Now the range has just become much more eco-friendly too - all new Muggis are entirely made from recycled materials, and can be recycled themselves, reducing the amount of plastic waste finding its way into the environment.

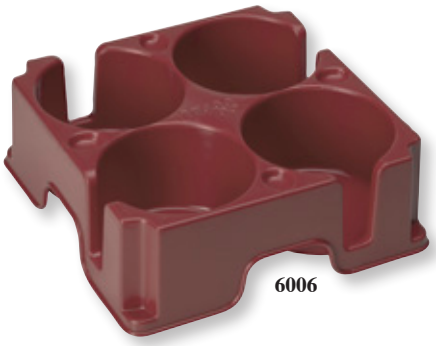

Recycled and recyclable - keeping plastic bottles out of landfill

Both versions are made from post-consumer recycled plastic - those plastic bottles you put in your recycling - keeping it out of landfill and the environment.

It's suitable for water, fuel, paraffin, cleaning products, and chemicals (except corrosive chemicals). The rigid inlet pipe, which can be poked through narrow hatches and fuel cans, is 40cm long and the flexible outlet is 60cm long.
