Tough, lightweight plastic inner for protection

Head Protection, Designed for Sailors

There are numerous safety hazards on board - being hit by the boom for example - yet sailors are often reluctant to wear safety helmets as they can be heavy, uncomfortable, and unattractive. These yachting caps incorporate a hard injection-moulded shell for protection and foam padding for comfort, and they meet the requirements of UK & EU Standard Specification BS.EN812 (similar to building site bump caps).

Full-peak SafaSail Cap

Incorporates a large peak to protect against bright sunshine, and a chinstrap to prevent cap being blown away in the wind.

5165 SafaSail Yachting Cap, navy/blue.
5166 SafaSail Yachting Cap, navy/red.

5165 **5166**

5167

Fully adjustable

Narrow-peak SafaSail Cap

A narrow peak version for those at the helm, to enable them to look up and see the wind indicator at the top of the mast.

5167 SafaSail Yachting Cap, navy/red.
