Glass Fishing Floats

Glass Fishing Floats

Encased in netted rope, these hollow floating coloured glass spheres were used to support fishermen's nets and to mark lobster pots for retrieval from the seabed. Today they are commonly used as interesting decor. Each is hand-blown to create an authentic bullseye at the cut-off point - no two are identical (hence measurements are approximate).

15224 Glass Floats, Turquoise, Set 4 (5-12.5cm).

15225 Set of 4 Glass Floats, Blue & Turquoise, 37x7.5cm.
