Cobb Outdoor Cooking System

Cobb Premier AIR

The Cobb Premier AIR offers a host of improvements and upgrades aimed at making cooking easier and your food taste even better. Just like the original Cobb, it's incredibly fuel efficient, versatile, and remains cool to the touch on the outside, so you can safely use it on board, in the garden, or on a picnic. On top of that, improved airflow makes it easier to control cooking temperature, thicker gauge stainless steel enhances durability so it will last longer, removable ash pan makes it easier to clean, and it's all backwards-compatible to allow continued use of Cobb accessories and fuel.

Cobb Cobblestones

Cobblestones are specially shaped to fill the fuel compartment of your Cobb barbecues, and formulated to burn hotter and longer than charcoal of the same size/weight. They are environment-friendly too, being made from coconut shells. Each stone burns for up to 2hrs (smoke-free after the first three minutes), with very little residue. They are individually plastic-wrapped, so won't absorb moisture if you keep them in a soggy locker and nor will they turn everything black.

99093 Cobblestones, Pack of 6.
