

Comfort

Quick positioning series seat pedestals

Pedestals in the quick positioning series are specially suitable for applications where multiple seating positions are used, such as in fishing boats. There are two positioning systems: a very quick click in system and a more sturdy threaded system. The components that form a complete pedestal can be ordered separately to offer great flexibility in seating configuration. Please make sure you order a swivel, leg and base to complete the pedestal. The quick release pedestals fit seats with hole pattern type S.
