

Passion for water

Body board

Surf the waves and find adventure with the YellowV body board CRUMBLE!

This board is extremely strong and rigid due to the drop stitch construction. This makes the board very light as well.

Weighing only 2,5 kg (5.5 lbs.) and in conjunction with its ergonomic handles you will find the body board highly maneuverable. The top of the board is made from EVA-Foam, ensuring a good grip of your body to the board. The ideal summer partner.

YVIBC42

Type	Name / Category	Length (cm)	Width (cm)	Thickness (cm)	Weight (kg)	Volume (L)	Max. load (kg)	EVA foam	Construction	Valve	Number of handles
YVIBC42	Crumble / wave	107	53	8	2,5	46	95	5 mm	Knitted, single layer PVC	GRI 'V5001'	2

Platform

Create your own spot on the water. A private island may only be for the lucky few, but the YellowV platform comes very close. For yoga, docking station or just to relax - this platform does it all.

Kit includes:

YVIFP8

Type	Name / Category	Length (cm)	Width (cm)	Thickness (cm)	Weight (kg)	Volume (L)	Max. load (kg)	EVA foam	Construction	Valve	Number of handles
